

REMARKS

Claims 81-110 are in the application for consideration.

The specification is amended as requested by the Examiner.

In response to the Examiner's nonstatutory double patenting rejection pertaining to claims 81-84, 88-91 and 95-110, please find a Terminal Disclaimer with respect to U.S. Patent No. 6,254,928, submitted herewith pursuant to 37 C.F.R. §3.73(b), thereby obviating such rejection with respect to these claims.

Claims 85-87 and 92-94 are listed as being withdrawn from consideration. However, each depends from a claim which is pending in the application, and which should be formally allowed with entry of the accompanying Terminal Disclaimer. Thereby, claims 81-110 should now be formally allowed.

This application is believed to be in immediate condition for allowance, and action to that end is requested.

Respectfully submitted,
